Welsh students will receive a £4,954 grant towards their tuition fee
- The Student Loans Company pay any Tuition Fee Loan to the university/college directly in instalments across the academic year

# Statement on EU Student Support

The government has confirmed that EU students will continue to remain eligible for undergraduate, master's, postgraduate and advanced learner financial support in academic year 2018 to 2019.

The decision means EU students applying for an undergraduate or master's course at an English university or further education institution in the 2018 to 2019 academic year will continue to have access to student loans and grants, even if the course concludes after the UK's exit from the EU.

EU students are eligible for home fee status, which means they are charged the same tuition fees as UK students. Other non-EU, international students do not have their tuition fees capped in this way.
