# Student Finance 2019/20

Adam Croucher Deputy Head of Registry

## The Student Finance Package 2019/20

## Tuition Fee Support: Full-Time Students

- Tuition fees for the 19/20 academic year are £9,250 for Home/UK students
- Eligible students **won't** have to pay any tuition fees up front
- A Tuition Fee Loan (not dependent on household income) is available to cover the fee levels set by the university or college
- Welsh students will no longer receive a grant towards fees
- The Student Loans Company pay any Tuition Fee Loan to the university/college directly in instalments across the academic year
- The loan is repayable, but linked to future earnings over £25,000\* a year
  - \* This threshold has been increased and should now rise with inflation.
- \*\*All figures subject to Parliamentary review\*\*

٠

### Statement on EU Student Support

- The government has confirmed that EU students will continue to remain eligible for undergraduate, master's, postgraduate and advanced learner financial support in academic year 2020/21.
- The decision means EU students applying for an undergraduate or master's course at an English university or further education institution in the 2020/21 academic year will continue to have access to student loans and grants, even if the course concludes after the UK's exit from the EU.

٠

• EU students are eligible for home fee status, which means they are charged the same tuition fees as UK students. Other non-EU, international students do not have their tuition fees capped in this way.
